The screenshot displays the GEOVIA Minex6.3 software interface. The main window shows a 3D design of a pit layout with three segments (Segment 1, Segment 2, and Segment 3) and a pit ramp. The interface includes a menu bar, a toolbar, and a 3D Design workspace. The workspace shows a 3D model of a pit with a ramp and three segments. The model is annotated with various speed limit labels, including 'Outbound intersection speed limits', 'Outbound speed limits', 'Inbound speed limits', and 'Inbound intersection speed limits'. The 'About' dialog box is open, displaying product information and a list of licensed modules.
